Membership Checklist and Why You Should Join!

- Due to a cooperative agreement with the National Propane Gas Association, ALL LPGA members MUST join the national association. Likewise, large, multi-state companies will pay their national dues directly to NPGA and include their state dues in that payment. We will reconcile the finances between NPGA and LPGA later in the year.
- You MUST have a 24-hour emergency phone line with a live operator. For those that don't have this required service, you face stiff fines, penalties and/or loss of your permit.
- You MUST have your employees trained through Mandatory Continuing Education approved through the state. This can be costly. Many of our training programs are completely free with your membership.

Other Louisiana Propane Gas Association Member Benefits

- **Safety Programs** - LPGA members may take advantage of propane safety training offered through the LPGA, all free or at reduced prices.
- **Louisiana Propane E-Newsletter** – Members receive LPGA's monthly email newsletter, which includes information on safety, legislation, upcoming events and other pertinent information to the propane industry.
- **Advertising Discount** - LPGA members receive a discount over non-members on advertising in the LPGA e-newsletter. Advertising in the LPGA e-newsletter is an efficient and effective way to get your message to those in the Louisiana Propane industry!
- **Scholarship** - Every year, NPGA awards three \$1,000 scholarships to a child of an employee, spouse of an employee, employer, owner or officer who is currently working in the propane industry and have been employed for no less than one year, and whose company is a member in good standing with the Louisiana Propane Gas Association. The scholarship is awarded to students who intend to pursue continuing education through two-year and four-year colleges as well as vocational, technical, and trade school programs. The scholarship funds are to be used towards tuition, books, or room and board expenses.
- **Propane Lobbying** - The LPGA is dedicated to achieving a favorable regulatory climate for the propane industry. The support of LPGA members helps make things like this happen:
Recent:
 - (1) The LPGA took the lead in proposing a reduction of the assessment charged to all propane dealers in the state. After extensive research, it was determined that, due to the increased price of gas, the current fees would far exceed the needs of the commission. The LPGA proposed a plan that would have reduced the fees by 15%. After extensive negotiations, the commission finally agreed to a 7.5% reduction which EVERY propane dealer in the state now enjoys. We continue to work with the Commission to ensure your assessments are being spent wisely.
 - (2) During the 2008 2nd Extraordinary Session, the LA legislature amended the law allowing for the removal of state sales taxes from the sale of propane to now include ALL persons not be limited to consumer / residential use only.
 - (3) LPGA Annually Fights Sales and Income Tax increases on Business.
 - (4) LPGA continues to fight for tax credits on the state and federal levels to make propane and propane autogas affordable choices for consumers. Our efforts over the years have saved dealers literally hundreds of thousands of dollars.
 - (5) LPGA works with the state LP Gas Commission to ensure that regulatory issues are consistent, viable and necessary for the safe and efficient application of propane for all venues and purposes.
 - (6) HB 898 was signed by the governor and became Act 512 of the 2022 Legislative session. It took effect on August 1, 2022. The bill prohibits local governments from passing any new laws or ordinances restricting the sale or use of Propane that would be in conflict with existing Federal or State laws.
- **Other Reasons to Join:**
 - Ignorance is no defense--The Commission will soon begin efforts to enhance their crackdown on illegal and unsafe activity. LPGA works with NPGA to ensure that our industry members maintain the highest degree of training available.
 - Unparalleled networking opportunities—From Propane Days and the world-famous Southeastern Convention and International Expo to local Board meetings and multi-state conventions, an LPGA membership offers the greatest opportunities to meet, share ideas and catch the latest in propane technology.
 - We need you! Quite frankly, our voice is stronger when EVERYONE participates.

Total Investment & Savings: Priceless!
