

To: The Best Propane and Propane Accessory Suppliers in the Industry
From: Randy Hayden, Executive Director Louisiana Propane Gas Association
Re: 2026 Association Dues

Please take just a minute to fill out this information and return it to our office with a check so you can take part in the exciting world of the Louisiana Propane Gas Association. Unlike some other associations, the LPGA is active and visible in defending and promoting our industry across the state and nation...and we invite Associate Members like you to participate with us.

As always, we will have quarterly meetings which include a family-friendly summer convention (with our friends from Alabama!) on the Gulf Coast. We are also planning another December board meeting in the historic City of Lights, Natchitoches, La.

Other opportunities include attendance at Trade shows, tailgating at high-profile sporting events, Louisiana Sports Hall of Fame Foundation events, and much, much more. And don't forget about Miss Louisiana, who for the past 14 years has helped represent our industry with unique poise, class, and professionalism. These incredible, talented young ladies are always interested in helping tell the story of Louisiana propane's value to our state. And if her schedule permits, she just may show up at one of your functions!

Let us help put you in direct touch with the decision makers of our member companies and show you some of the Southern hospitality that has made Louisiana famous. Please join us as we all grow together.

Randy Hayden
Executive Director

Louisiana Propane Gas Association Member Benefits

- **Safety Programs** - LPGA members may take advantage of propane safety training offered through the LPGA, all at reduced prices.
- **Louisiana Propane E-Newsletter** – Members receive LPGA’s monthly email e-newsletter, which includes information on safety, legislation, upcoming events and other pertinent information to the propane industry.
- **Advertising Discount** - LPGA members receive a discount over non-members on advertising in the LPGA e-newsletter. Advertising in the LPGA e-newsletter is an efficient and effective way to get your message to those in the Louisiana Propane industry!
- **Scholarship** - Every year, the NPGA awards three \$1,000 scholarships to a child of an employee, spouse of an employee, employer, owner or officer who is currently working in the propane industry and has been employed for no less than one year, and whose company is a member in good standing with the Louisiana Propane Gas Association. The scholarship is awarded to students who intend to pursue continuing education through two-year and four-year colleges as well as vocational, technical, and trade school programs. The scholarship funds are to be used towards tuition, books, or room and board expenses.
- **Propane Lobbying** - The LPGA is dedicated to achieving a favorable regulatory climate for the propane industry. The support of LPGA members helps make things like this happen:
 - (1) The LPGA took the lead in proposing a reduction of the assessment charged to all propane dealers in the state. After extensive research, it was determined that, due to the increased price of gas, the current fees would far exceed the needs of the commission. The LPGA proposed a plan that would reduce the fees by 15%. After extensive negotiations, the commission finally agreed to a 7.5% reduction which EVERY propane dealer in the state now enjoys.
 - (2) During the 2008 2nd Extraordinary Session, the LA legislature amended the law allowing for the removal of state sales taxes from the sale of propane to now include ALL persons not be limited to consumer / residential use only.
 - (3) LPGA Fights Sales and Income Tax increases on Business each year.
 - (4) LPGA continues to fight for tax credits on the state and federal levels to make propane and propane Autogas affordable choices for consumers. Our efforts over the years have saved dealers literally hundreds of thousands of dollars.
 - (5) LPGA works with the state LP Gas Commission to ensure that regulatory issues are consistent, viable and necessary for the safe and efficient application of propane for all venues and purposes.
 - (6) HB 898 was signed by the governor and became Act 512 of the 2022 Legislative session. It took effect on August 1, 2022. The bill prohibits local governments from passing any new laws or ordinances restricting the sale or use of Propane that would be in conflict with existing Federal or State laws.
- **Other Reasons to Join:**
 - Ignorance is no defense--The Commission will soon begin efforts to enhance their crackdown on illegal and unsafe activity. LPGA works with NPGA to ensure that the Certified Employee Training curriculum and the CETP Certification Program maintain the highest degree of training available in the propane industry. We want our suppliers to be partners in this effort.
 - Unparalleled networking opportunities—From Propane Days and the world-famous Southeastern Convention and International Expo to local Board meetings and multi-state conventions, an LPGA membership offers the greatest opportunities to meet, share ideas and catch the latest in propane technology.
 - We need you! Quite frankly, our voice is stronger when EVERYONE participates.

Total Investment & Savings: Priceless!

Louisiana Propane Gas Association Advertising Information

Please be advised the e-newsletter will be digital only.

(All prices are net amounts)

<i>Size:</i>	<i>Prices Per Publication (member/nonmember):</i>
Full Page	\$400 / \$600
